Pilot PSP
Network

PROJECT ✈️
WAYPOINT

Pilot Mental Health

Pre-

Post

32 countries
5 core regulations

European Pilot Peer Support Initiative
www.eppsi.eu

Peer Support Programmes What we have learnt so far

EASA, CAA ,12 AOCs & 12 months later...

Our Observations

- Long overdue
- Board level attention
- PMH both risk & opportunity
- A moral & commercial case
- Unanimous support for PSP

EASA, CAA ,12 AOCs & 12 months later...

Questions

- In-house vs Independent IHO
- Company specific vs. network
- Governance, compliance & assurance
- Utilisation & ROI
- Union engagement
- Cabin Crew; Engineers..?

Peer Support Programmes

Our Lessons

- Highly motivated (& capable) volunteers
- Renewed focus & commitment
- The benefits of greenfield developments
- A systemic approach
- And pilots use the internet first...

PROJECT ✈️ WAYPOINT

A collaborative project dedicated to pilot mental well being and resilience

Practical
Resources

Psychological
Expertise

Collaboration with
Pilots

A-Z COVERAGE

Ageing	Loneliness	Relationships III (Parenting)
Alcohol	Moods	Retirement
Anxiety	OCD	Returning to work after illness
Aspergers Syndrome	Panic Attacks	Returning to work after suspension

Fatigue	PTSD	Training III (Changing Fleets)
Finances	Race/Ethnicity	Training IV (Command)
Gender	Relationships I (Colleagues)	Tribunals
Line checks	Relationships II (Partner)	Wellbeing for pilots

General description

Experiences of being a pilot with depression

Depression & pilots: what do we know?

Coping strategies from pilots

Useful Resources

What the future holds
The next 2-3 years

Key challenges to resolve

- Consistent, clear regulation and application
- Professional competence and capacity
- Reviewing and refreshing existing PSP offers
- Developing new and best practices (e.g. assessment)
- Articulating the ROI proposition

International PSPs: A European Perspective
